

Amazon Is Afraid!

Amazon doesn't want us to have a union. They know we workers would have a voice then – and they couldn't treat us as badly as they do. That's why they're telling us not to sign a union authorization card. Amazon knows that when 30% of us have signed, we will get to have an electon for a union. They don't want us to have that choice.

Tell Amazon we want to vote. Scan the QR to sign your card now! If you've signed already, get your friends and family who work at RDU1 to sign:
